Booking a spring COVID-19 vaccination appointment

Dear ((fullName)),

We're inviting you to book a spring COVID-19 vaccination appointment. This is because your NHS record suggests you **may** have a **weakened immune system**.

You can check the summary of health conditions, treatments and medications that can cause a weakened immune system at **www.nhs.uk/get-covid-vaccine**.

How to get an appointment

- Phone **119**
- Book online at **www.nhs.uk/get-vaccine** – answer ‘Yes, I have a weakened immune system’ or ‘I’d like to check’
- Book on the **NHS App**
- Find your nearest COVID-19 vaccination walk-in site at **www.nhs.uk/covid-walk-in**.

The last date you will be able to get your vaccination is **30 June 2024**.

If you need support

119 gives support in 200 languages. You can also use text phone **18001 119** or the NHS British Sign Language service at **www.signvideo.co.uk/nhs119**.

If you get your care at home, contact your GP surgery for a **home visit**. If they can’t arrange it, find your local COVID-19 vaccination contacts at **www.england.nhs.uk/covid-vaccination-contacts**.

For this invitation in easy read and other languages and formats, visit **www.england.nhs.uk/seasonal-invites**.

At your vaccination appointment

We'll need to confirm you still have a weakened immune system before we can vaccinate you. For the health condition or treatment that weakens your immune system, it will help if you can:

- Bring a repeat prescription or medicine box, OR
- Bring an NHS letter confirming your diagnosis, OR
- Show your health record or medication history in the NHS App.

If your health status has changed and you no longer have a weakened immune system, you don't need to book another appointment.

More information

Getting your COVID-19 vaccination this spring will reduce your risk of serious illness. It's important you top up your protection because it fades over time and COVID-19 variants can change. For more information on the vaccine, go to **www.nhs.uk/covidvaccination**.

If any personal details in this invitation are wrong, you can check who to contact at **www.england.nhs.uk/covid-invite-enquiry**.

Yours sincerely,

NHS England Vaccinations Team
